

SIHL

INK COMPATIBILITY

3512 SilverFOX is an 11 mil, blockout, NFPA 701 certified, ultra-durable, water-resistant banner. The NFPA standard measures flame propagation for textiles and films, typically applied to curtains, draperies, and other hanging textiles.

SilverFOX's broad color gamut, achieved through its unique coating, combined with its blockout backing, makes it the ideal choice for free-hanging displays or high-quality roll-up systems.
