

INK COMPATIBILITY

3145 Glamour™ S is a 12 mil, semi-rigid photo board that delivers premium photo quality on solvent inkjet printers. Glamour™ expands the capabilities of solvent printers, truly bridging the gap between UV flatbed and solvent roll-to-roll printing. With an instant dry photo coating and now a more natural look, Glamour™ provides outstanding image quality and dot gain control on a board that is stiff enough to stand or hang, yet flexible enough to roll.
